

GAIN CONTROL WITH A HEALTH SAVINGS ACCOUNT

Your Anchor Choice plan gives you access to a health savings account (HSA) that gives you more control over the money you spend on doctors, drugs, and tests. The State's annual contribution to your HSA will be \$1,500 if you have individual coverage or \$3,000 if you have family coverage. This contribution is enough to cover the entire annual deductible for the Anchor Choice Plan!

An HSA is a great way to save money. Not only are you able to receive an annual contribution from the State, but you can make contributions as well. And once your balance reaches \$1,000, you can invest the money in your account for even greater earnings potential.

Your HSA is a little like a retirement account for medical expenses. When you put money into your HSA, you get a triple tax advantage:

- The money you put in may reduce your taxable income
- Interest you earn in an HSA is tax-free
- The money isn't taxed when you spend it on qualified medical expenses

The money in your HSA rolls over from year to year so you can use it any time, even in retirement.

You never lose it.
