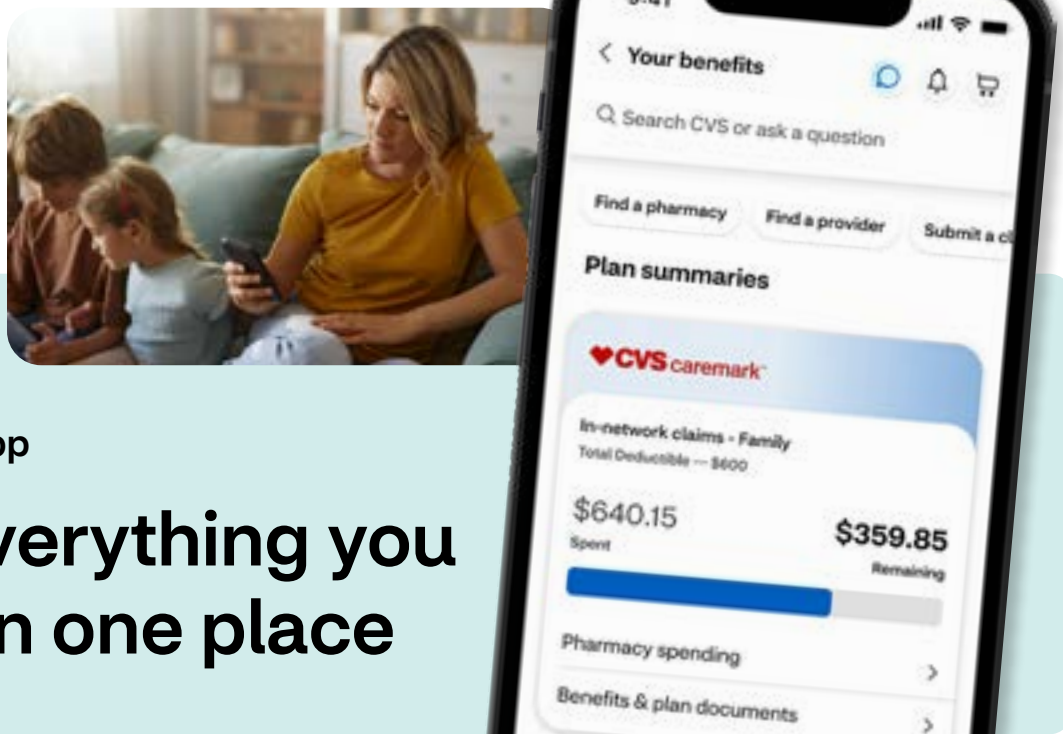
CVS caremark®



The CVS Health® app

Access everything you need, all in one place

Now, it's faster and easier than ever to keep track of retail pharmacy, mail order and specialty prescriptions, securely access plan benefits and enjoy savings right from your phone with our upgraded* mobile app.

Manage prescriptions

View orders, locate in-network pharmacies, and request refill delivery or pickup using a scannable barcode** in the app. You can even check the status on a prior authorization request.

Find helpful tools & info

Check and compare drug costs across in-network pharmacies to find possible savings. You can view your ID card and track current deductible and copay amounts, too.

Get answers & support

Need help with a complex condition or medication guidance? We're here for you and your family. And if someone helps manage your health, you can grant them access right in the app.

A better app means a better experience–scan this code to download the CVS Health app today.

* Some app functions are not available yet, but coming soon. App screen appearance may vary.
**Pickup using scannable barcode is available for retail pharmacy only.
