

Maintenance Choice®

Make the change to 90-day supplies

Fill your medications in 90-day supplies at a select participating pharmacy.

A change is coming to your prescription benefit plan

You'll need to fill the medications you take regularly (for things like diabetes, high blood pressure, asthma, etc.) in 90-day supplies at a select participating pharmacy. If you fill them at another pharmacy, or in 30-day supplies, your medications won't be covered and you'll pay the full cost.

If you want to keep filling your prescriptions at your current pharmacy in 30-day supplies without paying the full cost, you can call the number on your member ID card to opt out once your new plan starts. If you opt out during the plan year, you will need to opt out again when your plan benefits renew.

Visit [Caremark.com](https://www.caremark.com) to review your medications.

Here's what you need to do:

1. On or after your new plan's effective date, use the [Pharmacy Locator](#) tool on [Caremark.com](https://www.caremark.com) to find a select participating pharmacy
2. Ask your prescriber to send a new 90-day prescription to that pharmacy for pickup or delivery.

If you want to opt out of filling in 90-day supplies, call the number on your member ID card once your new plan starts.

Residents of certain states may not be eligible to participate in the Maintenance Choice program or may have a version which is modified to comply with applicable state law. If you have questions about your eligibility, please contact Customer Care at the number on your member ID card.
